السادة / ألس الإمارات للطابوق ذ.م.م المحترمين

تحية طيبة وبعد ،،،

الموضوع: طلب إعتماد منتجات مصنع ألس الامارات للطابوق ذ.م.م بعد تنفيذ جميع الملاحظات - برجاء تحميل

المرفقات

تهديكم بلدية مدينة العين أطيّب التحيات، بالإشارة إلى كتابكم (بدون رقم) الوارد إلينا بتاريخ 17.04.2023، والمستلم من قبلنا بتاريخ 18.04.2023، بخصوص الموضوع أعلاه، وبعد دراسة المستندات المقدمة من قبلكم، ولاحقا لزيارة مصنعكم بتاريخ 11.04.2023، يرجى العلم بأن لا مانع لدينا من توريدكم لمنتجات البلاط المتشابهك لمشاريع بلدية مدينة العين مع ضرورة الالتزام بمطابقتها لمتطلبات الدليل الارشادي لخدمات البنية التحتية في إمارة أبوظبي.

علما بأن سيتم إجراء تقييم دوري على مستوى المشروع للتحقق من مطابقة المنتجات للمواصفات المعتمدة.

للتسيق والتواصل:

اسم الموظف	الإدارة - القطاع	رقم التواصل
م. شماء الكعبي	الدعم الفني للبنية التحتية-البنية التحتية و أصول البلدية	037127716

مطلوب رد: نعم لا الفترة المطلوب الرد خلالها () أيام عمل ، وذلك من خلال المنصة الوطنية (مرسال) ، أو نظام المراسلات CTS.

وتفضلوا بقبول فائق الشكر والاحترام،

المرفقات:

Sub-Contractor	مسعيد بن حفيظ للمقاولات والنقل العامة MUSAIED BIN HAFEEDH FOR CONTRACTING & GENERAL TRANSPORTATION	المقاول الفرعي

Conditions

الشروط

- 1) This is only a preliminary approval for material aspects ONLY of Hollow Non Load Bearing Concrete Blocks, Size: 400x200x100 mm; from Alas Emirates Block LLC, Al Ain, as per required project specifications approved drawings.
- 2) On delivery and prior to installation, the Consultant shall collect random samples for testing at Abu Dhabi QCC lab/ or accredited third party lab for confirmation that the material complies with the required Project Specifications. And the total linear drying shrinkage shall not exceed 0.065% at the time of delivery.
- 3) Consultant shall inspect visually each of the blocks for confirmation of the specified dimensions, surface finishing and material as per the project specifications and approved shop drawings.
- 4) Note: The supervision consultant is fully responsible to ensure that the necessary ADM "Design Approvals" for the project have already been obtained through the Smart Hub (IDAS) system, prior to submission of Material Approval requests during the construction phase.

Final Recommendation:

Approved

التوصية النهائية:

Technical Reviewer:

هاجر محمد سيف العطر الظنحاني

المراجع الفني:

1. The project consultant and contractor shall be fully responsible for approving the materials from the approved list, and their conformity with the standard specifications and project contractual documents.

1. يتحمل استشاري ومقاول المشروع المسؤولية الكاملة عن اعتماد المواد من القائمة المعتمدة، ومطابقتها للمواصفات القياسية ووثائق المشروع التعاقدية.

2. The project consultant and contractor must carry out all quality assurance and control procedures for the material supplied for the project

2. يجب على استشاري ومقاول المشروع القيام بجميع إجراءات ضمان وضبط الجودة للمادة الموردة للمشروع.

Sub-Contractor		المقاول الفرعي

Conditions

الشروط

- 1) This approval is only for the material aspects of above Precast Concrete Pavers, single mix, (80mm thickness only), for Landscape as per required project specification and contract/ approved design drawings and according to latest ADM/ Abu Dhabi Tiling strategy. The approved pigment is from LanXess, Germany.
- 2) Moreover, this is NOT an approval of the architectural/aesthetic aspects such as Colors, dimensions, patterns, finish, chamfered or non-chamfered edges, etc. all of which shall be as per required project specification, contract drawings/ approved design drawings & ADM approved design requirements.
- 3) Upon delivery to site and prior to installation, the consultant shall perform satisfactory inspection and collect random samples from each type of pavers for testing at Abu Dhabi QCC Lab and/or accredited third-party lab to confirm that all parameters of the material Complies with the required project specifications. Frequency of routine QA/QC testing shall be as per approved ITP.
- 4)
- 5)
- 6) The original 10-years performance guarantee against de-lamination and color fading as per ADM requirements shall be submitted to ADM asset management team at time of handover.
- 7)
- 8)
- 9) Note: The supervision consultant is fully responsible to ensure that the necessary ADM "Design Approvals" for the project have already been obtained through the Smart Hub (IDAS) system, prior to submission of Material Approval requests during the construction phase.
- 10)
- 11)

Certificate Issued Based on ICV Version: 3.0

CERTIFICATE OF PRODUCT CONFORMITY

Dubai Central Laboratory Department (DCLD) of Dubai Municipality hereby attests that the product(s)

Rigid Cellular Polystyrene Thermal Insulation

(Details as per the attached Scope of Certification)

manufactured by:

STYRENE INSULATION INDUSTRY LLC
P.O. Box 9459, Mussafah, Abu Dhabi, U.A.E.

have been assessed in accordance with DCLD Document Ref. No. DM-DCLD-RD-DP21-2001 (IC) "General Rules for DM third party product certification system through factory assessment" and the relevant Specific Rules, and were found in conformity with the standard specification:

ASTM C 578:18

Accordingly, DCLD hereby authorizes the above manufacturer to affix the DCL Product Conformity Mark on the above-mentioned product(s).

ARIF AL MARZOOQI
Certification and Quality Control of Products Section Manager
Dubai Central Laboratory Department-Dubai Municipality

The attached Scope of Certification bearing the same Certificate Number forms an integral part of this Certificate.
This Certificate is an electronic document subject to the Terms and Conditions of the Product Certification System and shall not be reproduced except in full.

Corrections or comments made relative to submittals during this review do not relieve the contractor from compliance with the requirements of The Contract. This check is only for review of general conformance with the design concept of the project and general compliance with the information given in the contract documents. The contractor is responsible for confirming and correlating all quantities and dimensions, selecting fabrication processes and techniques of construction, coordinating his work with that of other trades and performing his work in a safe and satisfactory manner.

ENGINEER'S COMMENTS:

Approved with Conditions:

- 1, The supplier is not list in Project vendor, Contractor must submit hard copy at client office to obtain final approval,
- 2, This approval does not relieve the main contractor from their scope and strict compliance with project specification, authority requirements and Estidama requirements and must Submit three samples of each type of masonry unit and accessory with material submittal,
- 3, This approval is not included for Thermal blocks and contractor must submit with manufacturer/supplier to match with project requirements for thermal blocks,
- 4, Supplier must send only fully cured blocks to site with proper documents details and with proper tags with production date and other standard details,
- 5, Contractor must conduct testing and mockup as per project specification and all results to be submitted for records,
- 6, Each lot should be delivered with certificate of compliance issued by AACM/ADM Quality Control & Research Section and submitted with MR.

GHD COMMENTS SHEET

Estidama comment:

1. 250mm thermal block with 110mm polystyrene insulation to be considered for all external walls of the Admin Clusters and Service building.
2. 200mm hollow block is not accepted.
3. 200mm thermal block for the service building is not accepted.
4. 250mm thermal block with 110mm insulation k-value 0.07 is accepted.
5. Provide regional material letter.
6. Provide Asbestos free test report/ confirmation letter.
7. Provide test report/ letter for the insulation ODP=0 and GWP<5

GHD Comment:

1. Build mock-up to verify selection made to demonstrate and set quality standards for material and product execution. Mock-up shall include beads, transition trims, movement joint and other components/accessories necessary to complete the works. Specification section 042200 part 1 1.7 B
2. Submit material sample for selection and final acceptance prior to use. Submit 3 samples for each type of masonry units, Approved samples shall be retained in site for use as acceptance standard until completion of Works. Specification section 042200 part 1 1.5 D1.
3. Contractor to submit material submittal and mix design for Block mortar and grout as per specification section 042200 part 1 1.6 C.
4. All test requirements shall be done, test reports shall be submitted accordingly.
 - Specification section 04200 part 3 3.13C prior to construction one set of test need to be done for each type of block.
 - Specification section 04200 part 3 3.13D Testing Frequency One set of test for each 364sqm. (Or 5800pcs) Of wall area or portion thereof need to be done.
 - a. For each type of unit provided, according to ASTM C 140 or compressive strength.
 - b. Prism Test: For each type of construction provided, according to ASTM C 1314 at 7 days and at 28 days.
5. Block wall layout and detailed shop drawing shall be submitted for review and approval prior to execution on site.
6. Detailed methodology and Inspection test Plan (ITP) shall be submitted for review and approval.
7. Subject to comply ESTIDAMA comments accordingly.

CALIDUS AL AIN FACTORY

Subject : Material submittal for Interlock Pavers M/s Alas Emirates
Transmittal No : CPC/CAF1020/ARC/MTR/024 Rev. 00 received date 17/4/2019

APG Comments :

Status of approval: Approved with comments:

Technical comments:

The material is approved technically subject to the following:

- 1- Contractor to submit Method of statement for the application to engineer for review & approval.
- 2- Random sample shall be kept for test conduction.
- 3- Shop drawing approval including layout, pattern & details.
- 4- To comply with Estidama requirements.

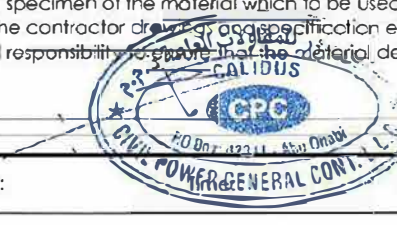

Sample comments:

- 1- To provide pattern have a combination between grey & black colour, hence sample with black colour to be provided for engineer final approval.
- 2- To provide samples with cube shape (black & grey).
- 3- Selection of the pattern will be after final colour approval.
